

SPIRAL MP

Microporous Vacuum Channel

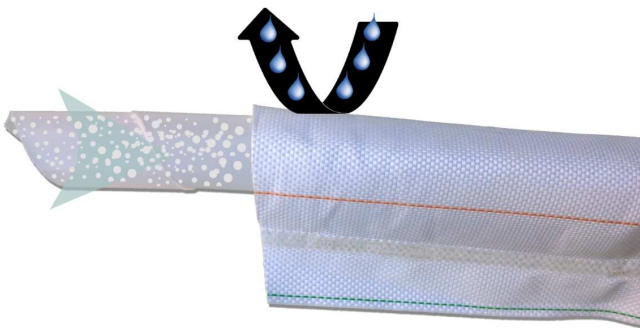

Vacuum moulding

Vacuum infusion

DESCRIPTION

SPIRAL MP is a very flexible microporous vacuum channel. **SPIRAL MP** is placed around the mold instead of the spiral pipe.

SPIRAL MP, resin will be stopped meanwhile the gas is still eliminated from the laminate.

SPIRAL MP can be also set at any place on the laminate. Use with our special connectors and tape to seal extremities.

STORAGE

Keep SPIRAL MP at room temperature and normal hygrometry.

CHARACTERISTICS / PRESENTATION

Color	Spiral pipe diameter	Max. Serv. Temp.	Peel ply MP	Weld width	Length
White	12 – 14mm	90°C	PES90 MP	3 mm	50 m
