WHY CHOOSE OUR COMPANY?

Reliable logistics:

Our warehouse located in Italy, on-time delivery ensured

Technical product consulting

Online and offline technical training

Our **European** production (Italy, Croatia, Poland)

Internal Research & Development Department: we project and create our products

Our **Passion** and commitment to **People, Environment** and **Communities**

SHIPBUILDING

Certified for the major **international classification** standards — such as DNV — our products provide high system reliability. The demanding conditions of the marine industry are satisfied by our products' quality. **ITW** solutions guarantee fire and vibrations resistance, **high performance** also against atmospheric and chemical agents.

Our people, sales and R&D team, are the key to provide **competent support wherever it is needed.**

Certified quality
