

SM4200

140°C Sealant Tape

DESCRIPTION

LSM4200 is polyvalent sealant tape recommended for room temperature applications and able to undergo exothermic temperature up to 140°C. **LSM4200** has been especially developed for infusion and vacuum moulding up to 120°C.

Economic and ideal for use on metallic composite tools, this sealant tape is easy to release from the tools: no contamination on the surface mould.

(it is recommended to strip the tape from the mould surface once it has cooled down to room temperature).

STORAGE

Store in its original packaging, at ambient temperature. Do not freeze.

Shelf life: use preferably within 12 months from delivery.
